# **Multi-printhead** Six-color eight-color

## high-precision printer

Printhead: EPSON I3200-A1/E1 x 6/8H

Ink color: Six colors (C/M/Y/K/Lc/Lm)

Eight colors (C/M/Y/K/Lc/Lm/Lk/LLk)

### **Printing Speed**

Type Mode	I3200-A1/E1 6H SIX COLOR	I3200-A1/E1 4H EIGHT COLOR
4 Pass	65m²/h	42.9m²/h
6 Pass	34.2m²/h	28.2m²/h

## Support for greyscale & VSDT

- The printhead releases three ink droplet sizes, with small droplets offset for color compensation, improving image detail.
- LC, LM, LK, LLK serve as complementary colors to CMYK, rendering the print quality more refined and the color gradients more naturally transitional.

## Intelligent operation printing and high-quality mechanical design

#### **Guide Rails** High-quality guide rails ensure

stable printhead movement, high precision, low noise, and long lifespan.

#### External Drying Device + Windshield

Upgraded to a higher-power drying fan, with adjustable temperature and wind speed to meet different needs. The newly added windshield can lock the wind direction, speeding up the drying process. (Compatible only with four-head machines.)

#### Anti-collision sensor

When the cart touches a foreign object, the switchs will be on, and machine stops printing.

#### **Machined Platform**

Machined one-piece platform ensures high flatness, easy ink suction, and simple printhead cleaning for smooth printing.
